Natuzzi Design Center

The beating heart of Natuzzi, the place where beauty is born, where trends that will influence the entire world of furniture take shape and substance. Imagining new shapes and colours, fixing them on paper with a sketch, and then transforming them into something concrete. Identifying the best combinations, imagining the future, discovering what will become the new trends, and turning them into unique and exclusive furniture collections: all of this is the Natuzzi Design Centre.

Natuzzi has chosen to bring its idea of harmony also to the world of interiors, playing between contemporary aesthetics and functionality, between materials and colors, between textures and graphic signs, to create spaces and residences where balance, elegance and beauty reign, in every detail.

Natuzzi Design Center works everyday in terms of research, new materials, new suggestions, in order to translate beauty, creativity and harmony into Natuzzi DNA.
